Monday T.O.R.C.H. Nights

This year, every Monday we went to Boykin Community Center to help students in IAMBK (I Am My Brother's Keeper) with their school work, while also encouraging them to pursue the fields of science, technology, engineering, and mathematics.

Concessions Fundraiser

To help raise money for our chapter to go to the National Convention in Kansas City, Missouri, several of our members worked booths during every home football game.

Intramural Sports

We work hard and play hard and encourage physical health within our membership. This was our third year having an intramural football team and we plan on continuing years to come.

Resume Building

This year we brought in companies such as Next Era Energy, Southern Company, and Georgia Pacific to help our chapter members edit their resumes. This has been a focus to increase chapter and professional development. These meetings were also designed to prepare members for the regional and national conventions.
